DNA Testing: Owner/Patient Report 10/14/2016

Submitter Information

Owner's Name Arild Halsen

Patient Information

Official Name	Ugly Duckling's Pearl Harbor	DOB	4/2/2010 (6 Years 6 Months)
Call Name	Perle	Sex	Female (Intact)
Breed	Miniature Schnauzer	Microchip #	208213990090779
Registration #	DK08378/2010		

Testing Information

Submission ID	14096	Processed By	Anna L Eringis
Testing Date	10/14/2016	Test	Avian Tuberculosis (MAC)-DNA [Fresh EDTA blood]

Result Information

Genotype 1-1 (Homozygous Normal)
Phenotype Healthy (Normal, Clear)
Interpretation Homozygous Normals (1-1) will not develop signs of Avian Tuberculosis (MAC) and none of their offspring will inherit the mutant (diseased) allele (gene).
1 = Normal allele (gene); 2 = Mutant allele (gene).

Sincerely,

Urs Giger, PD, Dr. med. vet., MS, FVH
Dipl. ACVIM, ECVIM, & ECVCP
Charlotte Newton Sheppard Professor

Karthik Raj, MS
Research Specialist
